

# 12 ECO-FRIENDLY habits on vacation

I sort my waste.

I also sort my waste during picnics and in natural areas.

I use reusable tableware for picnics.

I favor eco-mobility and the shuttles provided by the city.

I turn off the lights and prioritize natural light.

I air dry my laundry outside.

I prefer short showers.

I buy local products.

I stay on marked paths without climbing the dunes.

I admire nature without picking up or disturbing the local wildlife and flora.

I make sure to turn on the heating only if necessary, and I switch off the towel heater after use.

I pay attention to limiting noise disturbances when I come home late.

"Let's protect the vacations of tomorrow."
